State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **CDPH Statewide Travel Advisory**

As of 04/02/21, CDPH and the CDC recommend delaying travel until persons are fully vaccinated. For more information visit: <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Travel-Advisory.aspx>

On 04/21/21, the State Operations Center (SOC) changed the reporting tempo for the COVID-19 Sit Stat and Trifold Reports from daily to once a week. Updated reports can be expected every Tuesday of each week until further notice.

SITUATION SUMMARY

Coronavirus Disease 2019 (COVID-19) (Continued)

Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 06/15/21 at 1715 hours:

- 177,200,692 (+2,628,233) total confirmed cases
- 3,832,346 (+75,660) total deaths

Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 06/15/21 at 1715 hours:

- 33,303,285 (+95,797) total confirmed cases
- 597,594 (+2,293) total deaths

Confirmed California COVID-19 Cases - Per Medical Health Coordination Center as of 06/15/21 at 1715 hours:

- 3,697,927 (+6,267) total confirmed cases

COVID-19 Vaccines Administered – Per Vaccine Task Force as of 06/15/21 at 1715 hours:

- 39,789,490 (+1,137,292) vaccines administered
- Please see attached California Health & Human Services (CHHS) Agency / Cal OES Joint Situation Report for additional details

Phase II Activation of the Heat Contingency Plan

Phase II of the California Heat Contingency Plan was activated on June 16, 2021 through Sunday, June 20, 2021 due to forecasts of dangerous and excessive heat for portions of Inland, Coastal, and Southern Regions. State agencies will be contacted for actions in accordance to the Heat Contingency Plan.

According to the National Weather Service (NWS), *this type of heat and the length of the heat wave is unusual for the month of June. The majority of heat waves in the western U.S. historically have occurred in July or the first half of August. A very high heat risk is likely across much of southern and interior California with the hottest and most widespread temperatures Tuesday, June 15, through Saturday, June 21. Where we are expecting record temperatures to potentially be reached or broken is all along the Central Valley, as well as into the Palmdale area and south to Imperial Valley. We are anticipating temperatures to ease slightly later this weekend into next week.*

Cal OES INLAND REGION

Teviston CSD Water System Failure, Tulare County

On Monday, 6/14/21, Tulare County OES reported a water system failure in the community of Teviston, which has 110 service connections and a population of approximately 348.

- Tulare County OES coordinated the delivery of bottled water to each residence, which should provide enough water through the weekend and through the Excessive Heat Warning weather event. Participating agencies included several Tulare County departments, Self Help Enterprises, Community Services Employment Training (CSET), and Cal OES Inland Region.
- Refer to Situation Cell Incident Report for detailed Weather Watches and Warnings.

9-1-1 Outage/Remote/Community Isolation

Community Isolation, Hollywood Area, Los Angeles County (Initial)

AT&T has reported a Community Isolation affecting 51,154 VoIP and Wireline users in the Hollywood area of Los Angeles (zip code: 90028). The cause is unknown at this time.

- Time Outage Started: 06/17/2021 1411 hours
- Time Outage Reported: 06/17/2021 1517 hours
- Time of Resolution/Restoration: Estimated 06/17/2021 1611 hours
- Total Outage Time: N/A
- Jurisdiction Affected: Los Angeles Police Department
- Reason For Outage: Unknown
- Wireless Users Impacted: No
- Wireline and VoIP Users Impacted: Yes

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- A Fire Weather Watch will be in effect starting Friday at 1500 hours and end Friday evening at 2100 hours due to gusty winds.
 - This event will impact Modoc County except for the Surprise Valley.
 - Winds 10 to 15 mph with gusts of 25 to 30 mph.
- Multiple Excessive Heat Warnings and Watches throughout the Sacramento Valley, Coastal, foothills, and mountain regions in Northern California have been issued from Thursday to Saturday evening.

SOUTHERN CALIFORNIA

- Excessive Heat Warning through Saturday night for the San Diego County Deserts and Coachella Valley. High temperatures of 112-120 expected.
- Excessive Heat Warning through Saturday night for the Apple and Lucerne Valleys of San Bernardino Counties.
- Excessive Heat Warning for the San Diego County Valleys. Hottest areas will be in valleys near the foothills with high temperatures of 90-100.
- Excessive Heat Warning to Saturday night for the San Bernardino, Riverside, and San Diego County mountains.
- Gusty winds each afternoon and evening will lead to elevated fire weather conditions for the deserts onto the desert slopes of the mountains.
- A Fire Weather Watch will be in effect starting Friday at 1100 hours and end Friday evening at 2000 hours due to potential thunderstorms.
 - This event will impact Owens Valley and the Southern Inyo Forest.
 - Wind gusts 30 to 40 mph.

WEATHER KEY POINTS

06/17/21 - 06/23/21

Thursday - Wednesday

- Other than isolated mountain thunderstorms Thursday and Friday, dry and increasingly hot weather is expected through the weekend
- A widespread and long-duration heat wave will impact much of the state through the week and into the weekend, with temperatures gaining several degrees each day, peaking Thursday through Saturday. High temperatures will range from 100 to 110 degrees across the Central Valley late week, while inland areas of southern California range from 100 to 120 degrees, even hotter near Death Valley. **These temperatures will be dangerous for a large segment of the population!**
 - Extreme heat will significantly increase the potential for heat related illnesses, particularly for those working outdoors, participating in outdoor activities, and those who are heat sensitive
- Elevated to locally critical fire weather conditions can also be expected along and east of the the Sierra as well as the southern California mountains through the weekend as winds gust 25-40+ mph at times and very dry weather continues
- Temperatures begin moderating by late weekend with more seasonable daytime temperatures forecast by Monday for most of the state

06/17/21 - 06/19/21

Thursday

Friday

Saturday

Category	Level	Meaning	Category	Level	Meaning
Green	0	No Elevated Risk	Red	3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Yellow	1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration	Magenta	4	Very High Risk for entire population due to long duration heat, with little to no relief overnight
Orange	2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration			

WEATHER OUTLOOK

06/22/21 - 06/30/21

6-10 Day Outlook (June 22 – June 26)

Temperatures

- Near normal temperatures are favored across central and southern California, with above normal temperatures favored in northern California

Precipitation

- Near normal precipitation is favored statewide

8-14 Day Outlook (June 24 – June 30)

Temperatures

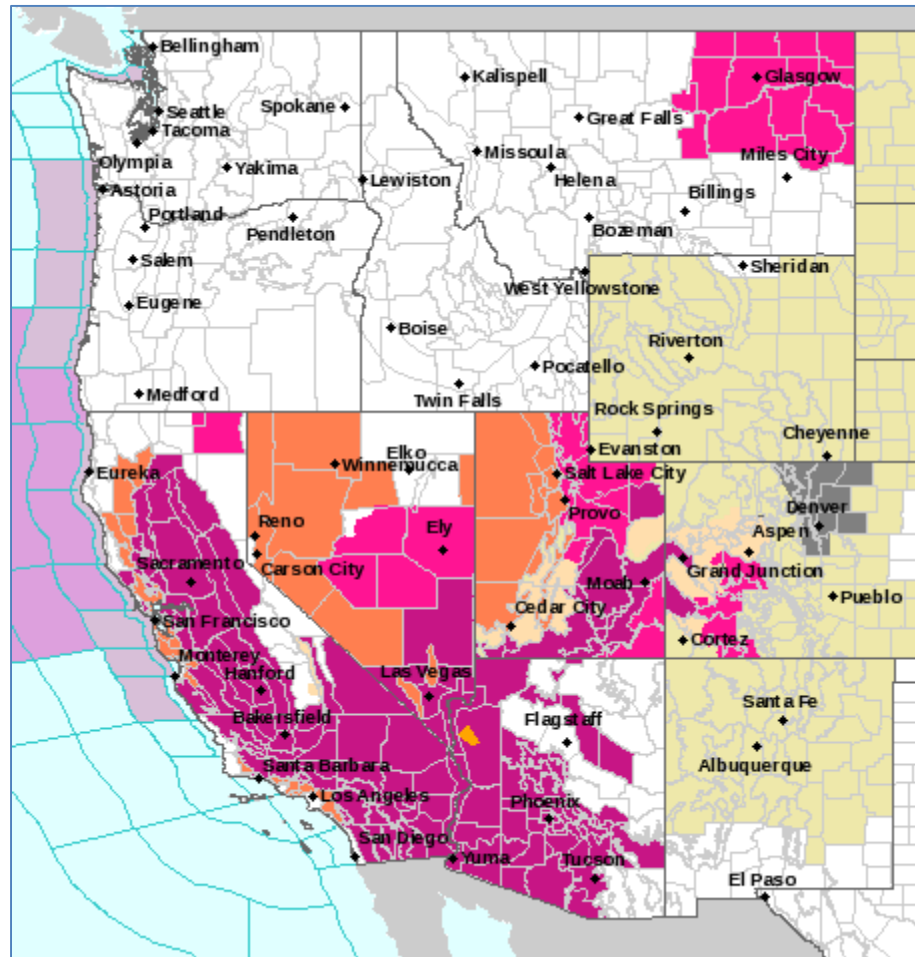

- Above normal temperatures are favored statewide

Precipitation

- Near normal precipitation is favored across most of the state, with below normal precipitation favored for far northern California
